Industrial Area Remediation Plan

Sue G. Stiger, Director
Environmental Restoration Management
EG&G Rocky Flats, Inc.

In recent discussions between you and I as well as our staffs, various scenarios for configuration changes to OUs have been identified, including one OU made-up solely of groundwater, breaking out the A, B, and C series ponds from OUs 5 and 6 into either a stand alone OU or a single IHSS that would be transferred to the Industrial Area OU for D&D.

Please provide me with proposals for each of the three scenarios that includes pros and cons from a technical and a regulatory perspective, by December 9, 1994.

Finally, DOE is open to proposals, at any time, that could provide a better way of accomplishing the work in a more efficient manner. It is imperative that EG&G take the initiative to propose improvements in all aspects of the ER program whenever EG&G identifies the opportunity.

Jessie M. Roberson
Jessie M. Roberson
Assistant Manager for
Environmental Restoration
